Online Courses & Study Blocks

MEI Secondary School does not give a study period in place of online courses taken. If students, or their families, choose to enroll in an online course, that will be in addition to the courses they are taking at the school, not in place of.

Students in Grade 11 are permitted to receive one Study Block only if they are taking 5 academic courses.

Because our ultimate academic goal is to graduate our students, MEI Secondary School reserves the right to hold all graduation-requirement courses within the timetable of the student until they can prove they have completed the online version of the course.
